

THE ONLINE SPACE - TUIHONO

Going behind the scenes ... looking at the online space and what's 'under the bonnet' of the internet - ipurangi.

Explore and unpack the questions, search for info, chat, collaborate, verify. Capture and present your knowledge through innovative ways (key words, visual representations, bullet points, arrows etc) or any way that best reflects your knowledge - don't forget to jot down **WHERE** you got your info from (attribution).

THE INTERNET (IPURANGI) IS A THING

- How and when did it evolve?
- Who owns it? Are there 'internet regulators' or people who control it if things go wrong?
- Is it the same for everyone around the world? Why or why not? Who helps us in New Zealand?

AGE RESTRICTIONS - NECESSARY OR NOT?

- What type of sites - paetukutuku/apps -taupānga carry age restrictions?
- Why are there age restrictions on some sites/apps?
- Is it important to have restrictions on some sites/apps? Explore pro's and con's (good and not-so-good things) about any restrictions.
- If we are younger than the age allowed on the site or app, what are some of the issues or challenges that could happen?

IN THE 'PUBLIC DOMAIN'

- What is the public domain?
- Why is this important to know about when we use online spaces?
- What sort of information or content do we have online right now that might be in the 'public domain'? What are the ways could we find out?
- What can we do to manage who can see our content online?

AN INTERNET FOR GOOD

- What are some of the ways the internet is helping people around the world? Find at least five different and significant ways it is making an important difference for groups in different parts of the world.

DIGITAL TOOLS WE USE IN OUR LEARNING

- List the digital tools / apps / sites used in our learning.
- What can we find out about the privacy and security of our content and information we share in each of these online sites?
- What happens to our learning content when we move classes or leave?

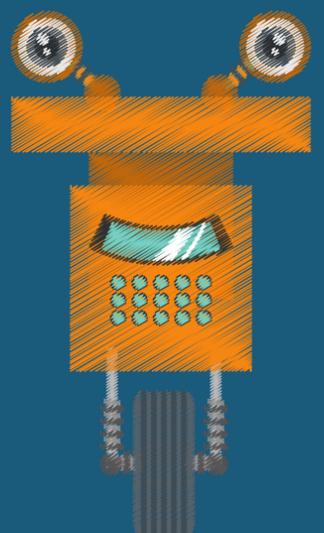

CONNECTING THE DOTS

- What is an ISP and what do they do?
- What is 'wifi' - ahokore? Bluetooth - Nihokikorangi ? Hotspot - wāhiwera? Describe their function and ways we might use these.
- Describe ways we can communicate using the internet or digital technology, and provide examples of the tools that enable this.
- What mechanisms are available to protect us, our information /content on devices/online? What's in place in our schools/Kura? At home?

THE C.V OF AN ALGORITHM

- What is an algorithm?
- Share an example of how these work or what they 'do' online.
- In what ways can they be helpful? Unhelpful?
- What are some of the possible / actual implications?

SEARCH ENGINES-KŪKARA

- What is a 'search engine' or browser?
- Find and explore three or more different browsers.
- If we only ever use just one browser, what are some of the opportunities and issues with this?
- Choose a different browser from your usual one. Try it out and review and rate it on how helpful and effective it is, and if you'd recommend it or not.
